

KEYBOARD STICKERS

Monlam Bodyig

free Tibetan keyboard for Mac and Windows

Use the stickers for your first weeks, then try typing without looking.

Solid stickers for white sticker paper or plain paper (with glue). A light tile covers the key, so the letters are easy to read on dark laptop keys.

Big letter: key alone
E J: keys with the bump
Rare signs are not shown.

Corner: with Shift
Grey letter: no sticker
* to be confirmed

GOOD TO KNOW

Tsheg ▾ **Space**

Blank space **Shift** + **Space**

Stack key **A**, then the letter that goes below.

STACKED LETTERS

སྐ S → A → K

གྲ R → A → G

ཤ S → A → P

STILL BEING CHECKED ON WINDOWS

Keys marked * are confirmed with Monlam's Mac keyboard. On Windows they may type a different sign. The letters, vowels, digits, tsheg and shad are the same on both.
